

# ET190-ASX

Ver. 5 Rel. 8/4/2020

## Elite Touch Series

The ET190 touchscreens take the place of the traditional car panel pushbuttons. The graphics on the touchscreen represent destinations served by the elevator. The passengers choose their floor by touching the appropriate area on the screen.

### Typical Applications

- Car Operating Panel

### Features:

- Broad viewing angle of 170 degrees (85 X 85 X 85 X 85)
- 24 Bit color choices (more than 16 million)
- Can be paired with EN81 keypad with LCD readout
- USB updatable
- ASME17.12007, CSA B44-07, ANSI A1171.1-2003
- UL-60950, CSA22.2 # 60950 ball drop test

### SAW Screen:

- SURFACE ACOUSTIC TOUCH
- Sound waves blanket face of glass and are interrupted by finger, thus placing a call
- Recessed screen
