S2 Floor Select Switch - sets the display to show an arrival arrow when the car is at a specific floor. To set the unit for arrival mode, position the car at the desired floor or turn on self-test. When the display shows the desired floor, press and hold S2 until the floor position changes to an arrow. To return to normal operation, press and hold S2 until the arrow changes to the floor position.

NOTE: The UP and DOWN inputs use a separate common than the FLOOR 1-7 inputs. If the signal voltage is from the same source for both sets of inputs or the UP/DOWN inputs are used for floor inputs, the signal common and arrow common should be tied together.
