SECURITY MANAGER
ADD-ON TO THE SECURITY SYSTEM

SECURITY
MASTER PROGRAMMER

The Security Manager is an add-on to the Security System in order to make the Security System more flexible and easier to update. The concepts from the Security System carry over to the Security Manager, just with a fresh, new, simpler yet still secure way to add or delete users from the Security System. Comes with software that runs on MS Windows.

FEATURES:

> Add, Delete Users
> Change Codes
> Adjust Timing
> Copy Memory
> Paste Memory
> Upload and View Existing Users
> USB to RS485 Converter

PRODUCT INCLUDES:

> SURXTX-X
> Security Manager Software (CD)
> Security Manager Manual
> USB Cable
> RS485 Cable
